Notice Regarding Unauthorized Access at a Consolidated Subsidiary's System and Personal Data Breach

PARK24 CO., LTD. has confirmed unauthorized access by a third party to the web system of the Times CAR car-sharing service operated by our consolidated subsidiary, TIMES MOBILITY CO., LTD. ("Times Mobility"), resulting in the breach of certain personal information held by the Group.

We sincerely apologize for the significant inconvenience and concern caused to our customers, business partners, and all other stakeholders.

1. Background

At 9:07 a.m. on Friday, September 25, 2026, Times Mobility detected unauthorized access to its system and immediately launched an investigation. As a result of our subsequent investigation, we confirmed that an unauthorized third party had gained access to our systems and viewed or improperly obtained certain personal information held by the Group.

To prevent further harm, by 7:25 a.m. on Saturday, September 26, we had blocked the access route used in the incident and communications from the source of the attack. We also confirmed that the route could no longer be used to access the system.

2. Personal Information Affected

The personal information confirmed to have been breached as of this date is as follows.

(1) Affected Customers

Approximately 6.6 million accounts

- Current and former Times CAR members (including applicants who applied for membership but whose enrollment was not completed for any reason)
- Current and former Times Business Service members

(2) Categories of Personal Information Affected

- Name
- Department name (for corporate members)
- Address
- Date of birth
- Telephone number

- Email address
- Driver's license information
- Identity verification document information (including images of driver's licenses)
- Passwords^{*1}
- IDs of external partner services^{*2}

^{*1} Passwords are stored in a non-reversible format, and therefore there is no risk that member accounts will be improperly used based on this information alone.

^{*2} IDs associated with third-party services, including the JR West Group membership service "WESTER ID" and eight other services (nine services in total).

(3) Other Information

We have confirmed that no credit card information was breached. Passwords are stored in a non-reversible format, and we have not identified any evidence that passwords themselves were exposed in a form that could be recognized or used by unauthorized third parties. As of this date, we have found no evidence that the information has been made publicly available or misused as a result of this incident.

3. Response by PARK24 and Its Subsidiary

An external specialist is conducting a forensic investigation to determine the cause and scope of the incident. We are also taking the necessary steps, including reporting the incident to the Personal Information Protection Commission and the police. If the investigation identifies any new facts or impacts, we will promptly notify affected parties and provide updates on our website and through other channels. We will individually notify the affected individuals in due course. As of the date of this announcement, no impact on service operations resulting from this incident has been identified, and all services continue to be provided as normal.

4. Remedial Measures and Future Preventive Actions

Regarding our recurrence prevention measures, we will provide a further update outlining the measures already implemented, the medium- and long-term measures to be implemented going forward, and the expected timeline for their implementation.

5. Impact on Financial Results

We are currently assessing the impact of this incident on our financial results. We will promptly disclose any material impact identified.
